“Cabinet Country Ltd. has been a Holiday Kitchens dealer for 45 years. Growing up in the business my father started, Holiday has been a huge part of my life. From our sales reps, customer service professionals and the truck drivers delivering our orders, Holiday has been like family. Holiday has been our go to cabinet line for most of our projects, big or small. The wood specie choices, finish options and door styles are endless. The ability to customize just about anything and the different construction packages are the key to fit any budget. We’ve worked with many cabinet lines over the years, but our loyalty has always remained with Holiday.”

Beautiful kitchen. Great quality! You can clearly tell the difference between this and a "stock" kitchen. The finish on the cabinets are a very even thick coat."

"We purchased some cabinets to complete our basement layout. Shelly, at Oostburg Lumber, was very professional and helpful in designing cabinets and counter tops to fit our small space. The shiny acrylic finishes provided exactly the pop of color we desired!! The quartz countertops and backsplash added just the right amount of sophistication. We are very pleased and satisfied with our choices."
