Within our family of products, you'll find a perfect fit for every taste and budget. Dura Supreme employs a balance of quality materials and construction features with an impressive array of styling options to deliver exceptional value and design. Crestwood Cabinetry is traditional, American "framed" cabinetry, custom crafted with premium joinery and materials, and an extraordinary palette of door styles and finishes. **DESTINED TO BE A CLASSIC**, this Bria kitchen combines the best of traditional styling with clean, modern design to create a look that will be as fresh tomorrow as it is today. Traditional white, painted cabinetry is given an up-to-the-minute look by selecting door styles and crown moldings with straight lines and sleek styling (no fussy details). An architectural hood with polished chrome accents and stainless steel appliances dress up this painted kitchen for upscale, contemporary appeal. The island offers a notable color contrast with its rich, dark, gray-hued finish on cherry cabinetry. The sculpted posts on each corner and the beadboard back give a nod to nostalgic farmhouse style in this modern kitchen.

“LOFT” LIVING originated in Paris when artists established studios in abandoned warehouses to accommodate the oversize paintings popular at the time. Modern loft environments idealize the characteristic features of their early counterparts with high ceilings, exposed beams, open spaces, and vintage flooring or brickwork. Soaring windows frame dramatic city skylines and interior spaces pack a powerful visual punch with their clean lines and minimalist approach to detail. Dura Supreme cabinetry coordinates perfectly within this design genre with sleek contemporary door styles and equally sleek interiors.

**THE CRISP CLEAN DETAILS** of a white painted kitchen are always in style! This captivating kitchen is replete with convenient banks of drawers keeping stored items within easy reach. A large refrigerator and freezer anchor the space on both sides of the range, and blend seamlessly into the kitchen. The spacious island invites family and friends to gather and make memories as you prepare meals. Conveniently located on each side of the sink are dual dishwashers, integrated into the cabinetry to ensure efficient clean-up. Glass-fronted cabinetry, with a contrasting finished interior, showcases beautiful glassware. Crestwood Inset cabinetry creates a perfect ensemble.

**DRAMATIC AND MOODY** never looked so good, or so inviting. Beautiful ship-lap detailing on the hood and the island create a sleek modern farmhouse vibe in this decidedly modern kitchen. An entire wall of tall cabinets hides a large refrigerator in plain sight and a walk-in pantry for amazing storage. The two larger cabinets flanking each side of the hood create an abundant amount of specialized storage. An extra sink and open shelving in the beverage area makes for easy clean-ups after cocktails for two or an entire dinner party. The warm contrast of paint and stain finishes makes this cozy kitchen a space that will be the focal point of many happy gatherings!

**BOLD AND BRASSY DETAILS** are a striking accent for this beautiful painted kitchen adding an elegant and eye-catching metal finish. Abounding in storage, drawer banks were designed below the window wall to take advantage of natural sunlight that floods the kitchen, making the brushed brass details glimmer. A hutch cabinet with glass doors and curved mullions adds a graceful display space for cherished items. Clever and convenient “column” pull-outs house spices and a knife block on both sides of the range to keep often-used items close to the cooking center. Making the most of every nook in this kitchen, a small desk for two is tucked into a corner to multi-purpose the space.

Each cabinet is designed with specialized storage for a beverage center and baking center. Tuck the pocket doors out of the way while preparing coffee or tea, and then close afterward to keep the countertops clutter-free. The small apothecary drawers make it so easy to organize special tea blends, savory syrups and hot chocolate for those long chats at the island. The unique furniture styling of the island blends the charm of an old farmhouse with the appeal of a fresh, modern home.
